COMPANY PROFILE

THE COMPANY

Stefanidis group of companies started its activities in 1979 producing molds, machinery and metal products, and consisting of two main companies:

- A. **INTERMETAL S.A.**, INTERMETAL S.A. is a modern industry which has great experience and specialization in designing, producing and marketing accessories and systems for architectural glass and industrial equipment for buildings. We produce a large range of high quality products, known worldwide by the brand name INAL.
- B. **STEFANIDIS TECHNOLOGIES S.A.**, is specializing in on-demand production systems and customer's products. We design and manufacture systems according to our customers' demands and providing solutions with contemporary architectural glass for the buildings. Also we have a strong presence in major projects with applications of architectural structures of metal and glass (Athens Hilton hotel, Museum of Acropolis, 2004 Olympic Games buildings etc).

ESTABLISHMENTS

Our two factories are located at Apolloniou st., 194 00 Koropi, Attica, Greece. Our first factory is at 6 Apolloniou st. consists of 4.500 m² facilities, build in 6.000 m² area, where we manufacture the products under the brand name **INAL**[®]. Also at the same building are our Head offices, customer service, marketing and R&D, as well as the central warehouse. The successful operation of the company has led to the creation of our second factory next to our existing facilities, at 10 Apolloniou st in a new 6.000 m² area with 1.500 m² storage and production building.

In order to provide better customer service our company runs two outlets in Athens, both equipped with highly trained staff to satisfy all customer needs. The stores are located in the area of Kallithea (120 m²) and in the area of Acharnes (120 m²).

EXECUTIVE MANAGEMENT

Our Management is carried by our Managing Director Mr. Titos Stefanidis, our R&D and Production Director Mr Stelios Stefanidis and our staff is more than 70 persons, including all levels of management and our high skilled technicians and trained production workers.

ACTIVITY / PRODUCTS

We design and produce INAL[®] glass systems for glass doors, revolving doors, glass door components, components and supporting systems for glass walls , movable and fixed partitions, folding and stacking glass systems, folding soundproof partitions, automatic sliding and swing doors, security locks for glass doors, stainless steel supports, dropped ceiling components, handrails and swimming pool area glass safety railing etc. Processing of aluminum profiles. Distributors and exclusive suppliers of glass door mechanisms and door controls.

DISTRIBUTION CHANNELS

We cover whole Greek market with 4 experienced salesmen. We export at more than 30 countries worldwide and especially at European Union, America, Australia and New Zealand, Russia and other Eastern European countries, Asia, Middle East and Africa.

Our Projects include: hotels, stores, financial institutions, museums, public sector buildings, office buildings, casinos, restaurants etc.

QUALITY ASSURANCE

INTERMETAL SA has been awarded the prestigious ISO 9001:2008 certification for its Quality Management System. The official certification audits at the INTERMETAL S.A. have been successfully completed in June 2017, by the accredited certification body TÜV NORD CERT GmbH.

The certification is carried out on 9th of June 2017 according to the criteria of the ISO 9001:2008 for the Design, Production and Sales of Building Industrial Equipment and Metallic Accessories and Systems for Glass Doors and Glass Panels of INAL® brand. Being ISO 9001:2008 certified is the key to expanding the presence of INTERMETAL S.A. in international markets as a company committed to the highest quality standards.
