KÖMMERLING

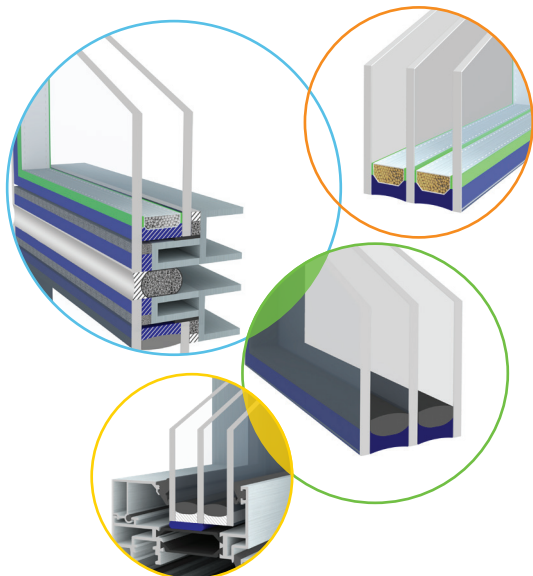

WINDOW & INSULATING GLASS

# One Source for All of Your Needs

With a focus on innovation, H.B. Fuller | KÖMMERLING strives to consistently deliver industry-leading solutions for glass and window manufacturers. As the premier global insulating glass (IG) sealant provider, we manufacture a full line of sealants for the assembly of IG, windows, façades, and doors compatible with all spacer types.

Providing the ideal solution for the production of high quality and energy efficient glass products for you is our mission. On the way achieving this goal, we support you not only with premium products, but also, for example, with the analysis of your manufacturing processes - carried out by our globally operating customer service with its first-class technical expertise. The equipment of our technical service laboratories enables us to produce and test prototypes with various sealing and spacer technologies - of course always in compliance with current industry standards. In close cooperation with manufacturers and our decades of technical and industry-specific experience, we will find the solution for your most difficult tasks - to enable you to create visually appealing, long-lasting and energy-efficient glass products for every type of design and application.

## APPLICATIONS AROUND GLASS

- Primary Seal
- Secondary Seal
- Warm Edge Systems
- Structural Glazing
- Windowbonding
- Burglar-Resistant Glazing
